PROFILE

Product engineer who plans and ships independently in TypeScript, React, Next.js and Node.js, including LLM features in production. Leads engineering at Tututor.ai / EduNova, an education platform of eight products used by 20,000+ students, teachers and families, building lesson chatbots, AI quiz generation and automated grading. Built a paid AI writing SaaS with OpenAI, Claude and Gemini fallbacks. Works remotely. Based in Pakistan. Available immediately.

EXPERIENCE

Lead Engineer / Full-Stack Engineer | Tututor.ai / EduNova

Nov 2023 - Present | Remote | Murcia, Spain

- Lead engineering across eight connected education products used by 20,000+ students, teachers and families.
- Ship teacher workflows for lesson-topic chatbots, AI quiz generation, automated grading and class insights; moved AI calls and API keys server-side.
- Build and maintain a shared Express / MongoDB backend with approximately 1,000 API endpoints and 90 models, including school-scoped data access.
- Led a small team across mobile and web delivery; now work directly with the founder on product and engineering.

React Developer | Danzee Tech

Jan 2022 - Jan 2024 | Viby, Denmark

- Built reusable React components and hooks across client products, alongside Node.js / Express integrations, authentication and payment workflows.
- Delivered Jurri file, inbox and password-vault interfaces; reduced initial load time by approximately 40% through code splitting, lazy loading and bundle optimization.

SELECTED PROJECTS

Viloi | AI writing SaaS | viloi.com

Built a paid AI writing product with OpenAI, Claude and Gemini fallbacks, JWT authentication, and Stripe subscriptions and webhooks.

Illume | AI business analytics | www.joinillume.com

Built adaptive AI-generated analytics and dashboards for revenue, bookings and retention, with Boulevard, Zenoti and Vagaro data integrations.

Yaksport | Sports travel booking | yaksport.dk

Built a Danish / English booking interface with search and filtering for a sports travel agency serving 100+ clubs.

TECHNICAL SKILLS

Frontend: React, TypeScript (4 years), Next.js (4 years), React Native (3 years), Redux Toolkit, Tailwind CSS, CSS Grid, Flexbox

Backend: Node.js, Express, MongoDB, SQL (3+ years), PostgreSQL, GraphQL, REST APIs, WebSockets, Redis

AI and integrations: OpenAI, Claude, Gemini, Stripe, JWT

Testing and tools: Docker (3+ years), Jest, React Testing Library, Cypress, Git, Vite, Webpack

Frontend practices: Shared component library or design-system maintenance; code reviews
