PROFILE

Full-stack engineer building production applications with React, TypeScript, Node.js and MongoDB. Leads engineering at Tututor.ai / EduNova across web products, shared backend services and mobile apps. Experience includes scoped data access, billing, booking interfaces and analytics. Based in Pakistan. Available immediately for remote work.

EXPERIENCE

Lead Engineer / Full-Stack Engineer | Tututor.ai / EduNova

Nov 2023 - Present | Remote | Murcia, Spain

- Build and maintain a shared Express / MongoDB backend with approximately 1,000 API endpoints and 90 models, including school-scoped data access.
- Deliver Socket.io / Redis messaging, R2 file storage, Stripe and SEPA billing, and three React Native apps released on both app stores.
- Led a small team across mobile and web delivery; now work directly with the founder on product and engineering.
- Lead engineering across eight connected education products used by 20,000+ students, teachers and families.

React Developer | Danzee Tech

Jan 2022 - Jan 2024 | Viby, Denmark

- Built reusable React components and hooks across client products, alongside Node.js / Express integrations, authentication and payment workflows.
- Delivered Jurri file, inbox and password-vault interfaces; reduced initial load time by approximately 40% through code splitting, lazy loading and bundle optimization.
